

JDK FUTURES GROUP LLC

CAPABILITY STATEMENT

TRANSPORTATION | TRUCKING | FREIGHT | LOGISTICS

JDK Futures Group LLC is a South Florida transportation company focused on local, regional and interstate freight transportation. Commercial trucking experience, a U.S. Army petroleum supply and logistics background, and a dedicated fleet management platform support accountable freight coordination for commercial customers and prime contractors.

Core competencies

Local, regional and interstate general freight trucking • Pickup and delivery coordination • Dispatch and shipment status communication • Proof-of-delivery workflows • Load, driver and equipment coordination

Commercial past performance and safety

Three years of transportation partnership with Amazon Relay, maintaining good standing and a clean safety record. JDK's commercial experience provides a practical foundation for recurring freight and transportation assignments.

JDK Futures Group LLC recorded zero reportable crashes and zero vehicle or driver out-of-service inspections in the reviewed 24-month FMCSA record.

Technology and communication

Motive integration complements JDK Fleet for fleet oversight. JDK Fleet centralizes load assignments, driver and truck records, shipment status events, compliance reminders and operating reports. Dispatch intelligence supports load scoring, lane analysis, cost and margin review, exception alerts and a Copilot brief generated from operational rules and stored fleet data. External AI model integration remains a development objective.

Direct telephone and business email connect customers with dispatch for pickup, transit, delivery and document coordination. Digital quote and recruitment forms support structured intake; internal app notifications support operational follow-up.

Differentiators

Military logistics expertise: JDK applies U.S. Army petroleum supply and logistics experience to accountability, organized supply movement and disciplined execution. Finance and accounting experience: JDK brings financial analysis, cost awareness and reporting discipline to transportation planning and business management. Commercial transportation experience: three years with Amazon Relay. Integrated fleet management: dispatch records, operating analysis and compliance follow-up in one workspace.

Industry classifications

484110 General Freight Trucking, Local

484121 General Freight Trucking, Long-Distance, Truckload

484122 General Freight Trucking, Long-Distance, Less Than Truckload

NAICS codes appear in JDK's SAM record; offered services and capacity are defined for each contract.
